EXPERIENCE

MERN stack web developer experienced in HTML5, CSS3, JavaScript, Bootstrap, Node.js, and jQuery.

PROJECTS

Farmers Market Search — *HTML, CSS, JS, Bulma, jQuery, Mapbox*

A mobile-responsive app to find farmers markets in a specified area, display their location on a map, and show their schedules and a list of products available.

Deployed website

Weather Dashboard — *HTML, CSS, JS, Bootstrap, Moment.js, jQuery*

A weather forecast app to show the temperature, humidity, and UV index for the day, as well as a five day prediction for temperature and humidity.

Deployed website

Day Planner — *HTML, CSS, JS, Bootstrap, Moment.js, jQuery*

A scheduling app with a dynamically updating UI showing past, current, and upcoming events or tasks for the day.

Deployed website
